

ABOUT MBS

Memaar Building Systems (MBS) is a subsidiary of EII CAPITAL, and is one of the largest manufacturers of Pre-Engineered Steel Buildings (PEB) and Sandwich Panels in the world. With a current monthly production capacity of 8,000MT of steel buildings and 1 50,000m² of sandwich panels.

- MBS produces PortaCabins in standard sizes as well as customized sizes. All MBS PortaCabins can accommodate doors and windows.

- The MBS PortaCabin is supplied loose for export, to be assembled on site and can be supplied factory assembled for the local market. The MBS PortaCabin can be dismantled and reassembled at any time.

- The MBS PortaCabin is available in single units and can be arranged vertically and/or horizontally (stackable arrangements available with staircases).

- Sheeting can be single skin or sandwich panels, available in all MBS standard colors (RAL 1001, RAL 5012, RAL 6021 & RAL 9002).

- Some popular applications include customized low cost housing for industrial, military, government/emergency, and precision built homes, as well as accommodation camps, guardhouses, semi-permanent offices, semi-permanent structures and many more.
